Dossier: White Power Organizer and Atlanta's John Marshall Law School Student Casey Jordan Cooper

From Casey Cooper Information:

In March 2017, Atlanta Antifascists exposed Atlanta's John Marshall Law School student Casey Jordan Cooper (AKA "Phoenix Reich") as one of the most active white power organizers in the Metro Atlanta area. We documented that Cooper made a death threat against a Black activist in our city and that he published racist comments about others at his law school. In May 2017, yet more information about Cooper came to light, revealing that Cooper is affiliated with the white nationalist organization Identity Evropa and that he organized other racists to paste propaganda such as "Why White Women Shouldn't Date Black Men" around Georgia campuses. Since Atlanta's John Marshall Law School seems unconcerned by their student's behavior, we are releasing this dossier with over 500 pages of documentation on Casey Cooper and his white power agitation. Download the dossier here.
